MAPEGLITTER

Metallic coloured glitter based on polyester, aluminium and epoxy resin

WHERE TO USE

MapeGlitter is added to **Kerapoxy Easy Design** in rates of up to 6% by weight to form grouting mortar with a sparkling, metallic finish, and is particularly recommended for metallic tiles and vitreous tiles and mosaic. **MapeGlitter** may also be added to **Mapelux Lucida** in rates of 1% to 3%, according to the finish and tone required, to obtain sparkling finishes on internal walls.

TECHNICAL CHARACTERISTICS

MapeGlitter is available in silver and gold.
When mixed correctly, it forms grouts and wall finishes with the following characteristics:
· translucent finish to improve the effect of coloured coatings with special decorative characteristics;
· semi-transparent effect for a brighter, glossier finish and to enhance coatings.

RECOMMENDATIONS

Never use more than the recommended dose of **MapeGlitter** so that the workability of the grout/mortar is not affected. Do not use **MapeGlitter** in swimming pools and for external applications.

HOW TO USE

Mixed with Kerapoxy Easy Design
Add **MapeGlitter**, at a variable ratio depending on the aesthetic effect desired (up to 6% by weight), to the drum of **Kerapoxy Easy Design** mix after mixing the two components of **Kerapoxy Easy Design** (A+B). Create a hole in the mix obtained and pour **MapeGlitter** in it; cover it and manually mix with a trowel to properly blend the glitter. Then mix with a low-speed mixer until an even blend is obtained. Apply the **Kerapoxy Easy Design/MapeGlitter** blend within 45 minutes of mixing.

Mixed with Mapelux Lucida
Add **MapeGlitter** directly to **Mapelux Lucida** wax (mixed with approximately 5% of water), according to the effect and finish required. Mix until an even blend is obtained.

CONSUMPTION

The consumption of **MapeGlitter** varies according to the effect and finish required.

PACKAGING

MapeGlitter is supplied in 100 g sachets.

MAPEI®

COLOURS

MapeGlitter is available in Silver and Gold.
