

DUST OFF 360

Technical Data Sheet

Creation Date 13/07/2018

Version I

CRC Dust Off 360 removes dust with a powerful jet of high-pressure dry inert gas.

Where to use?

Designed for use as a cleaner for all electrical or electronic devices. Perfect to use when liquid cleaners are no option.

How does it work?

CRC Dust Off 360 blows away dirt, dust, particles and dry contaminants. It prevents errors and damage caused by microscopic dust. Leaves no residue or condensation. Can also be used upside down.

What to expect?

CRC Dust Off 360 blows away dust in a couple of seconds. It leaves no residue and is moist-free.

Be prepared

- Before use, carefully read and observe the warning texts on the label
- Avoid contact with skin and eyes, in case of contact with liquid product frostbite symptoms may occur.
- Dispose empty cans according to your local legislation.

Help for a good application

- For best results, use the “quick shot” method aiming at the contamination to be removed. After multiple or continuous application, allow some time for the internal pressure to be restored.
- Use extension tube for precision applications and hard-to-reach areas.
- For use on energized equipment keep ambient temperature under 28°C.

Technical data (Aerosol)

Appearance: Colorless gas

Volume: 125 ML
