

ROPE LIGHT 50

50 m approved rope light providing 50000 lumen

ORIGINAL
SCANGRIP

SINCE 1906

A cost-effective and versatile LED rope light for convenient illumination on the construction site. It is designed for illumination in stairwells and corridors, and as orientation lights along walkways.

It has a length of 50 meters and provides 50000 lumen. In addition, it offers easy and effortless direct connection to the AC mains.

Compared to other solutions on the market, this rope light features a built-in electronic circuit to ensure compliance with all applicable legislation in the area (EMC directive 2014/30/EU).

Offering a flexible and durable design, the rope light is suitable for humid working environments (IP66) and can operate at temperatures as low as -10 °C.

For convenient storage, the velcro cable strap can be wrapped around the rope light when it is not in use.
