For your safety

Target group

This document is intended for all users of the Geberit DuoFresh inserts for Geberit DuoFresh sticks.

Children and adults who are not familiar with its use should be given appropriate instructions and may need to be supervised.

Intended use

The Geberit DuoFresh stick insert is intended for inserting Geberit DuoFresh sticks into the cistern.

Operation, care and maintenance work may only be performed by the operator or user as described in this user manual.

Use for any other purpose is deemed improper. Geberit accepts no liability for the consequences of improper use.

Product description

Suitable Geberit DuoFresh sticks can be inserted into the cistern via a drawer.

The actuator plate featured in these instructions corresponds to the Sigma20 type and also applies analogously for other compatible types.

Operation

Inserting a Geberit DuoFresh stick

Prerequisite

- The Geberit DuoFresh stick colours the water blue. Only insert a new stick when you notice a permanent decline in the colouring effect.

Only use original Geberit DuoFresh sticks. These can be ordered from the relevant Geberit sales company.

- 1 Gently pull the actuator plate forwards (1) and swivel it to the right (2).

2 Pull out the drawer with the filter.

The film on the Geberit DuoFresh stick is water-soluble and does not need to be removed.

3

Insert the Geberit DuoFresh stick into the holder.

- 4** Push in the drawer until the holder noticeably locks into place.

- ✓ The Geberit DuoFresh stick detaches from the holder and falls into the cistern.

- 5** Swivel the actuator plate to the left (1) and gently push it backwards (2) until it noticeably locks into place.

Clientèle visée

Le présent document s'adresse à tous les utilisateurs des tiroirs Geberit DuoFresh pour sticks de nettoyage Geberit DuoFresh.

Les enfants et les adultes non habitués à son utilisation doivent être instruits en conséquence et surveillés le cas échéant.

Utilisation conforme

Le tiroir pour stick de nettoyage est spécifiquement conçu pour le montage de sticks de nettoyage Geberit DuoFresh dans le réservoir.

L'utilisation, l'entretien et la maintenance doivent être effectués par l'exploitant ou l'utilisateur exactement comme décrit dans ces instructions.

Toute autre utilisation est considérée comme non conforme. Geberit ne saurait être tenu responsable des conséquences d'une utilisation non conforme.

Descriptif du produit

Un tiroir permet d'installer les sticks de nettoyage Geberit DuoFresh adéquats dans le réservoir.

La plaque de déclenchement représentée dans ces instructions correspond au type Sigma20 et convient également à d'autres types compatibles.

Utilisation

Insérer le stick de nettoyage Geberit DuoFresh

Condition requise

- Le stick de nettoyage Geberit DuoFresh colore l'eau en bleu. Glissez un nouveau stick uniquement lorsque l'effet de coloration s'atténue durablement.

Insérez uniquement des sticks Geberit DuoFresh fournis par le fabricant d'origine. Ceux-ci peuvent être commandés auprès de la Geberit société de distribution responsable.

- 1 Tirer légèrement la plaque de déclenchement vers l'avant (1) puis la faire pivoter vers la droite (2).

2 Sortir le tiroir avec le filtre.

La feuille du stick de nettoyage Geberit DuoFresh se dissout dans l'eau et ne doit pas être retirée.

3

Insérer le stick de nettoyage Geberit DuoFresh dans le support.

- 4** Insérer le tiroir jusqu'à ce que le support s'encliquète.

- ✓ Le stick de nettoyage Geberit DuoFresh se dissout depuis le support et descend dans le réservoir.

- 5** Faire pivoter la plaque de déclenchement vers la gauche (1) et appuyer doucement vers l'arrière (2) jusqu'à l'encliquetage.

Grupo objetivo

Este documento va dirigido a todos los usuarios de los alojamientos Geberit DuoFresh para Geberit DuoFresh sticks.

Los niños y los adultos que no tengan experiencia con la utilización del dispositivo deberán ser instruidos y, dado el caso, supervisados.

Uso previsto

El alojamiento para Geberit DuoFresh stick de cisterna ha sido concebido para la introducción de Geberit DuoFresh sticks en la cisterna.

El manejo, cuidado y mantenimiento solo pueden ser realizados por el propietario o usuario en la medida que están descritos en las presentes instrucciones.

Cualquier otra aplicación será considerada como un uso no conforme a lo previsto. Geberit no se responsabiliza de las consecuencias de una aplicación no prevista.

Descripción del producto

Mediante un cajón se pueden introducir Geberit DuoFresh sticks adecuados en la cisterna.

El pulsador descrito en estas instrucciones es el tipo Sigma20 y debe tomarse en representación de todos los tipos similares.

Manejo

Introducción de Geberit Duo-Fresh stick

Prerrequisito

- El Geberit DuoFresh stick tiñe el agua de color azul. Sustituya el Geberit Duo-Fresh stick cuando note que el efecto del color se haya debilitado notablemente.

Únicamente emplee Geberit DuoFresh sticks originales. Puede solicitar las piezas originales a la empresa distribuidora autorizada de Geberit.

1

Arrastre el pulsador ligeramente hacia delante (1) y gírelo a la derecha (2).

2 Extraiga el cajón con el filtro.

La lámina del Geberit DuoFresh stick se disuelve en el agua y no hace falta retirarla.

3

Introduzca el Geberit DuoFresh stick en el soporte.

- 4** Inserte el cajón hasta que sienta que el soporte ha encajado.

- ✓ El Geberit DuoFresh stick se suelta del soporte y cae a la cisterna.

- 5** Gire el pulsador a la izquierda (1) y empújelo ligeramente hacia atrás (2) hasta que sienta que el pulsador ha encajado.

Turvallisuus

Kohderyhmä

Tämä dokumentti on suunnattu kaikille, jotka käyttävät Geberit DuoFresh -nippoja Geberit DuoFresh -tikuille.

Lapsia ja aikuisia, joilla ei ole kokemusta laitteen käytöstä, täytyy opastaa ja tarvittaessa pitää silmällä.

Määräysten mukainen käyttö

Geberit DuoFresh -tikun nippa on tarkoitettu Geberit DuoFresh -tikkujen asettamiseen huuhtelusäiliöön.

Laitteen käyttäjä saa suorittaa käytön, hoidon ja kunnossapidon vain niiltä osin, kuin tässä käyttöohjeessa on kuvattu.

Mitkään muut käyttöalueet eivät kuulu määräysten mukaiseen käyttöön. Geberit ei ota vastuuta seurauksista, jotka johtuvat määräysten vastaisesta käytöstä.

Tuotekuvaus

Sopivat Geberit DuoFresh -tikut voidaan asettaa laatikon kautta huuhtelusäiliöön.

Tässä ohjeessa esitetty huuhtelupainike vastaa Sigma20-tyyppiä, ja sen tiedot koskevat soveltuvien osien lisäksi muita yhteensopivia tyyppejä.

Käyttö

Geberit DuoFresh -tikun asettaminen paikalleen

Edellytys

- Geberit DuoFresh -tikku värjää veden siniseksi. Aseta uusi tikku vasta, kun värjäytyminen on loppunut kokonaan.

Käytä vain alkuperäisiä Geberit DuoFresh -tikkuja. Niitä voi tilata valtuutetulta Geberit-jakeluyhtiöltä.

1

Vedä huuhtelupainiketta hieman eteenpäin (1) ja käännä oikealle (2).

2 Poista suodattimen sisältävä laatikko.

Geberit DuoFresh -tikun suojakalvo on vesiliukoinen eikä sitä tarvitse poistaa.

3

Aseta Geberit DuoFresh -tikku kannakkeeseen.

- 4** Työnnä laatikkoa sisäänpäin, kunnes kannake napsahtaa selvästi paikalleen.

- ✓ Geberit DuoFresh -tikku irtoaa kannakkeesta ja putoaa huuhtelusäiliöön.

- 5** Käännä huuhtelupainiketta vasemmalle (1) ja työnnä sitä hieman taaksepäin (2), kunnes se napsahtaa selvästi paikalleen.

Öryggisupplýsingar fyrir notendur

Markhópur

Þetta skjal er ætlað öllum notendum Geberit DuoFresh skúffa fyrir Geberit DuoFresh stauta.

Börnum og fullorðnum sem ekki þekkja til notkunar búnaðarins skal leiðbeint um hana og eftir atvikum fylgst með þeim.

Rétt notkun

Skúffan fyrir vatnskassastauta er ætluð til að setja Geberit DuoFresh stauta í vatnskassann.

Rekstraraðilar eða notendur mega aðeins annast viðhald, umhirðu og viðgerðir sjálfir að því marki sem lýst er í þessum leiðbeiningum.

Öll önnur notkun telst vera röng. Geberit tekur enga ábyrgð á afleiðingum rangrar notkunar.

Vörulýsing

Hægt er að setja viðeigandi Geberit DuoFresh stauta í vatnskassann með skúffu.

Stjórnplatan í þessum leiðbeiningum samsvarar gerðinni Sigma20 og á einnig við fyrir aðrar samhæfar gerðir.

Notkun

Geberit DuoFresh statur settur í

Skilyrði

- Geberit DuoFresh staturinn litar vatnið blátt. Setjið ekki nýjan staut í fyrr en liturinn á vatninu dofnað verulega.

Notið eingöngu upprunalega Geberit DuoFresh stauta. Panta má þá hjá söluaðilum Geberit.

- 1 Dragið stjórnplötuna dálítið fram (1) og ýtið henni síðan til hægri (2).

2 Takið skúffuna með sínni úr.

Filman utan um Geberit DuoFresh stautinn leysist upp í vatni og þarf því ekki að fjarlægja hana.

3

Setjið Geberit DuoFresh stautinn í hölduna.

- 4** Setjið skúffuna í þannig að haldan festist greinilega.

- ✓ Geberit DuoFresh stauturinn losnar úr höldunni og fellur ofan í vatnskassann.

- 5** Ýtið stjórnplötunni til vinstri (1) og þrýstið henni lauslega inn (2) þannig að hún festist.

Jūsu drošībai

Mērķa grupa

Šis dokuments ir paredzēts visām personām, kas lieto Geberit DuoFresh stienīšiem paredzētos Geberit DuoFresh ieliktnus.

Apmāciet bērnus un pieaugušos, kam nav ierīces lietošanas pieredzes, nepieciešamības gadījumā nodrošinot uzraudzību.

Lietošana saskaņā ar noteikumiem

Skalošanas kastes stienīša ieliktnis ir paredzēts Geberit DuoFresh stienīšu ievietošanai skalošanas kastē.

Īpašnieks vai lietotājs drīkst veikt apkalpošanu, kopšanu un uzturēšanu kārtībā tikai šajā instrukcijā paredzētajā apmērā.

Jebkāda citāda lietošana neatbilst noteikumiem. Geberit neuzņemas atbildību par sekām, ko ir izraisījusi noteikumiem neatbilstīga lietošana.

Izstrādājuma apraksts

Izmantojot atvilktni, skalošanas kastē var ievietot piemērotus Geberit DuoFresh stienīšus.

Šajā instrukcijā parādītais noskalošanas panelis atbilst tipam Sigma20 un ir attiecināms arī uz citiem saderīgiem tipiem.

Apkalpošana

Geberit DuoFresh stienīša ievietošana

Priekšnoteikums

- Geberit DuoFresh stienītis iekrāso ūdeni zilā krāsā. Ievietojiet jaunu stienīti tikai tad, ja krāsas efekts ilgstoši ir samazināts.

Ievietojiet tikai oriģinālos Geberit DuoFresh stienīšus. Tos iespējams pasūtīt pie attiecīgā Geberit izplatītāja.

1

Nedaudz pavelciet skalošanas paneli uz priekšu (1) un virziet uz labo pusi (2).

2 Izvelciet atvilktni ar filtru.

Geberit DuoFresh stienīša plēve šķīst ūdenī, un tā nav jānoņem.

3

ievietojiet Geberit DuoFresh stienīti turētājā.

- 4** Iebīdiet atvilktni, līdz turētājs jūtami nofiksējas.

- ✓ Geberit DuoFresh stienītis tiek atbrīvots no turētāja un iekrīt skalošanas kastē.

- 5** Pavirziet skalošanas paneli (1) uz kreiso pusi un viegli spiediet uz aizmuguri (2), līdz tas jūtami nofiksējas.
