weber flex fix

Saint-Gobain Finland Oy

General information

Product:

weber flex fix

Program operator:

The Norwegian EPD Foundation Pb. 5250 Majorstuen, 0303 Oslo Phone: +47 JĨĨ ÁG€€€ e-mail: post@epd-norge.no

Declaration number: ÞÒÚÖËFÏ Ì €Ĩ Í ŒÒÞ

ECO Platform reference number:

This declaration is based on Product Category Rules:

CEN Standard EN 15804:2012+A1:2013 serves as core PCR. NPCR Part A: Construction products and services. Ver. 1.0. April 2017

Statement of liability:

The owner of the declaration shall be liable for the underlying information and evidence. EPD Norway shall not be liable with respect to manufacturer information, life cycle assessment data and evidences.

Declared unit:

1 kg weber flex fix

Declared unit with option:

A1,A2,A3,A4

Functional unit:

Verification:

Independent verification of data, other environmental information and the declaration according to ISO14025:2010, § 8.1.3 and § 8.1.4

External

Third party verifier:

Sign

and Konny

Senior Research Scientist, Anne Rønning

(Independent verifier approved by EPD Norway)

Owner of the declaration:

Saint-Gobain Finland Oy Contact person: Anne Kaiser Phone: +358400289933 e-mail: anne.kaiser@saint-gobain.com

Manufacturer:

Saint-Gobain Finland Oy

Place of production:

Parainen Premix plant Kalkkitehtaantie 21600 Parainen Finland

Management system:

ISO 9001:2015, ISO 14001:2015 and OHSAS 18001:2007

Organisation no:

FI09515553

Issue date: ĠÈÉÍÈ€FJ

Valid to: Ġ È€ È€G

Year of study:

2018

Comparability:

EPD of construction products may not be comparable if they not comply with EN 15804 and seen in a building context.

Author of the Life Cycle Assessment:

The declaration is developed using eEPD v3.0 from LCA.no Approval: Company specific data are:

Internal verification by: Anne Kaiser

Approved:

Product

Product description:

Weber flex fix is cementitious tile adhesive for attaching ceramic tiles and natural stone tiles in dry indoor spaces, where the adhesive plaster requires high deformation capability.

Weber flex fix is suitable for following applications:

- tiling of new concrete floor
- tiling with extra large tiles
- sauna wall tiling and fireplace tiling

- tiling on floor boards

Weber flex fix has excellent adhesion, elasticity class S2 (EN 12002) and it is for deformable substrates. Flex fix is fibre-reinforced lightweight adhesive.

Product specification

The composition of the product is described in the following table:

| Materials | |
|-----------|--------|
| Binder | 30-60% |
| Aggregate | 35-55% |
| Filler | 5-15% |
| Additives | 6-14% |
| Packaging | 3,92% |

LCA: Calculation rules

Declared unit:

1 kg weber flex fix

Cut-off criteria:

All major raw materials and all the essential energy is included. The production processes for raw materials and energy flows with very small amounts (less than 1%) are not included. These cut-off criteria do not apply for hazardous materials and substances.

Machines and facilities (capital goods) required for and during production are excluded, as is transportation of employees.

Data quality:

Specific data for the product composition are provided by the manufacturer. They represent the production of the declared product and were collected for EPD development in the year of study. Background data is based on registered EPDs according to EN 15804, Ostfold Research databases, ecoinvent and other LCA databases. The data quality of the raw materials in A1 is presented in the table below.

Plant manufacturing data is collected for 2017. Raw materials and production volumes are based on the data from September - December 2018 and production plans for the 2019. The whole year data is not available, since products are new.

| Materials | Source | Data quality | Year |
|-----------|-------------------------|--------------|------|
| Chemicals | Chemicals below cut-off | No data | 0 |
| Aggregate | ecoinvent 3.4 | Database | 2017 |
| Binder | ecoinvent 3.4 | Database | 2017 |
| Packaging | ecoinvent 3.4 | Database | 2017 |
| Packaging | Modified ecoinvent 3.4 | Database | 2017 |
| Cement | S-P-01276 | EPD | 2018 |

Technical data:

Weber flex fix is designed, produced and CE marked according to EN 12004:2007 + A1:2012 Adhesives for tiles. Requirements, evaluation of conformity, classification and designation.

Market:

Nordic and Baltic countries.

Reference service life, product

The reference service life of the product is similar to the service life of the building.

Reference service life, building

60 years.

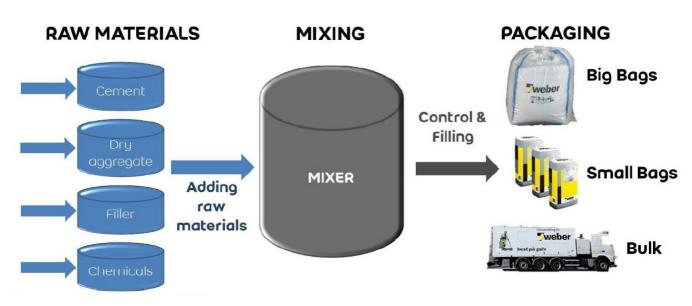

Allocation:

The allocation is made in accordance with the provisions of EN 15804. Incoming energy and water and waste production in-house is allocated equally among all products through mass allocation. Effects of primary production of recycled materials is allocated to the main product in which the material was used. The recycling process and transportation of the material is allocated to this analysis.

System boundary:

All processes from raw material extraction to product transport to the construction site are included in the analysis (A1 - A4). The flow chart below illustrates the system boundaries for the A1 to A3 part of the analysis.

Additional technical information:

The density of the product is 1,30 kg/dm3. Recommended water content for dry product is approx. 0,28-0,30 l/kg.

LCA: Scenarios and additional technical information

The following information describe the scenarios in the different modules of the EPD.

Transport to market (A4) is calculated based on the default distance of 300 km from NPCR 009. Additional information is given in the table below regarding distances to other relevant markets and calculation factors for converting GWP/A4 to the specific market.

Transport from production place to user (A4)

| Туре | Capacity utilisation (incl. return) % | | Distance km | Fuel/Energy consumption | Unit | Value (I/t) |
|----------------------|---|---|-------------|-------------------------|-------|-------------|
| Truck | 55,0 % | Truck, lorry over 32 tonnes, EURO 5 | 300 | 0,022823 | l/tkm | 6,85 |

Additional Norwegian requirements

Greenhouse gas emissions from the use of electricity in the manufacturing phase

National production mix from import, low voltage (production of transmission lines, in addition to direct emissions and losses in grid) of applied electricity for the manufacturing process (A3).

| Electricity mix | Data source | Amount | Unit |
|---|------------------------|--------|---------------|
| Renewable electricity with Guarantee of Origin from LOS (kWh) | Modified ecoinvent 3.4 | 60,20 | g CO2-ekv/kWh |
| District heating, Parainen (kWh) | Modified ecoinvent 3.4 | 20,54 | g CO2-ekv/kWh |

Dangerous substances

The product contains no substances given by the REACH Candidate list or the Norwegian priority list. The product is classified as hazardous waste (Avfallsforskriften, Annex III), see table.

| Name | CASNo | Amount |
|-----------------------|------------|--------|
| Portland Cement white | 65997-15-1 | 25-50% |

Indoor environment

Regarding indoor air quality Weber flex fix has M1 indoor emission classification granted by the Finnish Building Information Foundation (Suomen Rakennustietosäätiö, RTS).
