Product-Information

PU Cleaner

1. Product Description

Ideal cleaner for use after installing and for maintaining factory-cured floor coverings. Removes dirt, fat, grease and shoe marks. Does not leave a residue.

2. Areas of Application

Resilient flooring with a polyurethane factory finish or treated with PU Sealer mat, Antislip or Anticolor.

3. Method of Application

Cleaning after installation:

Remove coarse dirt using a brush or vacuum cleaner. In case of stubborn dirt, dilute PU Cleaner in a ratio of 1:10 (1 litre to 10 litres of water), reducing the concentration accordingly for slight soiling. Distribute the cleaning solution over the floor and, after allowing to stand for a short time, treat the floor surface using a scrubbing brush. Where larger areas are involved, the Monodisc should be used with red pad or scrubbing brush. Take up the dirt using a wide-headed absorbent wiper mop, for larger floor areas using a Spray Extractor machine with hard floor adapter. Wipe over with clear water to neutralise.

Consumption: approx. 1 l = 50- 100 m²

Daily Cleaning:

Dilute PU Cleaner in a ratio of 1:200 (50 ml to 10 litres of water) and wipe over the floor using this solution. The concentration can be reduced to 1:400 (25 ml to 10 litres of water) when using a fully automatic cleaning appliance.

Consumption: 1 l = 1000 m²

Note: Sensitive surfaces (such as wood, metal, furnishings) should not be sprayed with the cleaning solution

PU Cleaner

5. Quality Inspection

Certified in Germany by the Forschungs- und Prüfinstitut für Facility Management GmbH, Metzingen (FIGR)

6. Unit Sizes

5 l canister

Art.-No. 0715000501

The above advice on procedure for use is based on the best of our knowledge and the latest information available on cleaning technology. For this reason, when using our quality products, no damage will be incurred to the materials to be cleaned if strict attention is paid to the instructions printed on the container and the procedure suggested by us is followed. The use to which our products are put is, however, beyond our control. It is the responsibility of the user and does not release the user from making his own checks of the products supplied by us as to their suitability for the intended procedure and purposes. The information supplied by us is therefore non-binding and cannot be used as a basis for establishing the company's liability for any damage incurred. This also includes the infringement of any rights for the protection of third parties.
