

Double Sided Jointing Tape

Page 1

- Resists Moisture & Gas Ingression
- Excellent adhesion
- BBA Approved
- Part of the VisqueenPRO 2 part system

Description

Visqueen Double Sided Jointing Tape is a high performance blue double sided butyl mastic tape, supplied in 50mm x 10m rolls for damp proof membrane joints; and Visqueen Zedex Joint tape 100mm x 15m for damp proof course joints.

Application

A tape for bonding Visqueen Damp Proof Membranes (DPM) at overlaps and for bonding membranes to Damp Proof Courses (DPC) at junctions with internal and external walls.

For Visqueen Damp Proof Membranes, the joint/lap should then be sealed using VisqueenPro Single Sided Jointing Tape.

Installation

Ensure surfaces are clean and dry. Apply tape to the lap area of the laid sheet starting approx 50mm from the membrane edge. Overlap adjoining membrane by minimum 150mm and remove tape release paper. Apply pressure to the jointed area to ensure adhesion.

For Visqueen Damp Proof Membranes, the joint/lap should then be sealed using VisqueenPro Single Sided Jointing Tape.

Storage

When the weather is cold, store tape in a warm, dry place until required.

VISQUEEN
BUILDING PRODUCTS

Double Sided Jointing Tape

Appendix A

Visqueen Building Products

Visqueen is the market leader in the manufacture and supply of structural waterproofing and gas protection systems. Visqueen offers the complete package - a proven, reliable range backed by a technical support service that goes unmatched in the market - everything you would expect from a reputable and ethical company.

System Accessories

To ensure full waterproofing protection please use the following certified system components:

- Visqueen High Performance (HP) Tanking Primer
- Visqueen TreadGUARD1500
- Visqueen Protect&Drain
- Visqueen Top Hat Unit
