Danfoss Industrial Automation

Danfoss Industrial Automation is a leading global player within the development and production of fluid controls and pressure and temperature controls. Since 1933, the extensive know-how within Danfoss has made modern life easier and we continue to break new ground in our core business areas. Every day, more than 250,000 items are produced at 70 factories in 25 countries. Building strong partnerships is of great importance to us, because it is purely by understanding our customers' needs that we can meet the expectations of tomorrow. This is also true in Danfoss Industrial Automation we are dedicated to focus on the industrial world of today. Through us, you gain access to the entire Danfoss pool of technologies, with

special emphasis on pressure and temperature sensors and controls. We offer safer, more reliable and more efficient solutions in a close cooperation based on firm values.
