Care advice

To facilitate the cleaning of shower doors and shower walls, the showers have large smooth surfaces and profiles without deep grooves. Discolouration is removed using citric or tartaric acid, rinse thoroughly afterwards. Limescale stains are removed using household vinegar warmed to 50 degrees: Rub it in, let it act, rinse away. Repeat for tough stains.

Skötselråd

För att underlätta rengöringen av duschdörrar och duschväggar har duscharna stora släta ytor och profiler utan djupa skåror. Missfärgningar tas bort med citron eller vinsyra; skölj noga efteråt. Kalkfläckar tas bort med 50 grader varm hushållsättika: gnid in, låt verka, skölj bort. Upprepa om fläckarna är svåra.

Vedlikeholdsråd

For å forenkle rengjøringen av dusjdører og dusjvegger har dusjene store slette glassflater og profiler uten dype sprekker. Missfarging tas bort med sitron eller vinsyre, skyll nøye etterpå. Kalkflekker tas bort med 50 grader varm edikk: gni inn, la det virke, skyll bort. Gjeta om flekkene er vanskelige å få bort. Gjennom å polere innsiden på dusjveggene i klart glass med Hafa Easy Clean glass forsegles glassoverflaten slik at den blir enklere å rengjøre. Bruk aldri slippende rengjøringsmidler på dine dusjdører/dusjvegger.
