Certificate of constancy of performance 0843-CPR-0517

In compliance with Regulation (EU) No 305/2011 of the European Parliament and of the Council of 9 March 2011 (the Construction Products Regulation or CPR), this certificate applies to the construction product

Bostik FP 310 Intumescent Acrylic Penetration Seal and Linear Joint Seal Classified for use in flexible & solid walls and solid floors

A sealant used to seal around cables and metallic pipes to form a penetration seal to reinstate the fire resistance performance of wall and floor constructions, where they have been provided with apertures for the penetration of services. The sealant may also be used to seal linear gaps and joints in and between wall and floor constructions to reinstate the fire resistance performance of wall and floor constructions, where they abut or include gaps. Bostik FP 310 Intumescent Acrylic is supplied in liquid form contained within 310 & 380 ml cartridges and 600 ml foil packs. The sealant is gunned into the aperture in or between the separating element/elements and where appropriate around the service or services, to a specified depth utilising various backing materials.

placed on the market under the name or trade mark of
