

# Eco Radiators

With this new generation of our oil-free eco radiators, ewt is making an important contribution to environmental protection and greater heating comfort at the same time.

The long warm-up times of conventional oil-filled radiators are a thing of the past with these high-performance radiators. Thanks to the optimised heating ribs and the dynamic heat output through thermal slits, there is a double heating effect that heats rooms much faster. Due to the floor-protecting rollers, they have unrestricted mobility.

## NOC eco 25 TLS

Power output: 1700/2500 watts, thermostat controlled, 11 ribs

## NOC eco 20 LCD

Power output: 1400/2000 watts, thermostat controlled, 9 ribs, LCD display for convenient climate control

## NOC eco 20 TLS

Power output: 1400/2000 watts, thermostat controlled, 9 ribs

## NOC eco 15 TLS

Power output: 1000/1500 watts, thermostat controlled, 7 ribs
