Declaration of clearance for *End-Grain Sealing Wax Colourless for Kebony (8131K+)*.

Dear Sir or Madam,

Our *End-Grain Sealing Wax Colourless for Kebony (8131K+)* complies with the requirements of applicable EU directives.

In the production of the mentioned product, we do not use raw materials which are based on lead, mercury, arsenic, cadmium or chromium VI. The use of hazardous solvents like benzene, aromatic hydrocarbons or chlorinated hydrocarbons is waived. Our *End-Grain Sealing Wax Colourless for Kebony* does not contain formaldehyde, acetaldehyde or 2-butanone oxime as raw materials.

None of the used raw materials is classified as carcinogenic, mutagenic or toxic for reproduction according to "Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures" (CLP-Regulation).

Our *8131K+* does not contain any substances which are listed as substances of very high concern (SVHC) according to "Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals" (REACH-Regulation).

The *End-Grain Sealing Wax Colourless for Kebony (8131K+)* is not classified as dangerous for the human health or the environment according to Regulation (EC) No 1272/2008.

Labelling and information regarding the safe handling of our products can be found in our latest safety data sheet and in our technical data sheet.

Saicos Colour GmbH – Carl-Zeiss-Straße 3 – 48336 Sassenberg

The assessment regarding the raw materials based on the safety data sheets and technical data sheets provided by our raw material suppliers. Further information, e.g. on impurities during raw material production, is not available to us.

Please do not hesitate to contact us if there are any further questions.

Kind regards,

SAICOS Colour GmbH
