

A modern Scandinavian living room featuring a light-colored wooden dining table and chairs, a large potted plant, a fireplace with a fire, and a round coffee table with a book and flowers. The floor is covered in light-colored wood-look flooring. A white rectangular frame highlights a section of the floor and the plant.

Virtuo, the reference in sustainability

Virtuo

Carbon footprint

- Manufacturing Footprint in Europe
- ISO14001 & 50001 certifications
- Renewable energy

100% recyclable

- Up to 35% of recycled content
- Adhesive Free solutions
- Packaging using 100% recycled cardboard

We **care** / We **act**

Third-party verified life cycle analysis of our products can be found in their Environmental Product Declaration (EPD)

Why choosing Virtuo is an eco-responsible choice?

- You select a lighter floor covering (meaning that fewer raw materials are used) and a solution containing up to 35% recycled materials.
- Our floors are designed to last for up to 25 years. The longer you keep your floor, the more you will reduce your impact on the environment.
- You select an easy-to-clean floor: Cleaning (water, detergent and electricity for vacuuming) represents 10 to 20% of a floor covering's total carbon footprint when considering all the steps in its lifecycle, from cradle to grave.
- The best choice for healthy room air: Virtuo floors are almost emission-free, free of formaldehyde, heavy metals, solvents and endocrine disruptors.

FAQ

I'd like a clearer idea by adding examples of Virtuo floors to a photo of my room.

With our Interior Designer service, you can test all our floors in your home using a photo of your interior. It's simple, fast and free!

How to clean my Vinyl floor?

Some water and soap, and that's all! Our floors are immune to stains, so no special cleaning is required (no sanding, dry polishing, etc). To quickly and easily remove dust, use a broom or vacuum cleaner. When it comes to cleaning, soapy water will more than do the job.

More than a floor...
