

The all-rounding bit within convincing quality

ADVANTAGES

- The bits „Made in Germany“ manufactured from special steel with high hardness degree are suitable for both hand driven and machine guided applications.
- The perfect fitting inside screws ensures working with low-wear of the product and consequently long lifetime and clean working results.
- The profile guarantees an ideal connection for an optimal power and torque transmission that prevents damages of the surface or the screw-heads.
- Also available as clearly arranged bit-set with 11 or 31 pcs including bit-holder.

APPLICATIONS

Number of internal drives in various profile sizes, such as:

- PH, PZ cross-slot
- TX star recess
- Suitable for 1/4" drives

The non-slip bit

ADVANTAGES

- The coating with diamond-saphire-particles ensures the best possible power-transfer and prevents the bit tip from slipping out of the screw head.
- The diamond-coated bit "Made in Germany" with a high hardness grade guarantees the greatest service life and corrosion resistance.
- The torsion zones created by the tapered bit cross-section offers relief in the case of extreme loads. For a more effortless installation and maximum operating efficiency.
- The high dimensional accuracy allows for an ideal fit. For clean results and a long life span.

APPLICATIONS

Number of internal drives in various profile sizes, such as:

- PH, PZ cross-slot
- TX star recess
- Suitable for 1/4" drives

The ultimate torsion-bit

ADVANTAGES

- The ultimate solution for extreme installation torques. Ideal for usage in high-performance power-and impact-tools.
- Optimal geometry of the profile guarantees unique performance and durability for sophisticated applications and users.
- The elastic torsion zone releases at extreme loads to ensure a gentle working and maximum operating efficiency.
- The high dimensional accuracy allows for an ideal fit. For clean results and a long life span.
- Also available as clearly arranged bit-set with 8pcs including bit-holder.

APPLICATIONS

Number of internal drives in various profile sizes, such as:

- TX star recess
- Suitable for 1/4" drives

The bit holder for rapid bit exchange

ADVANTAGES

- The bit holder family for 1/4" bits with magnetic insert hold the bit securely in the drill chuck and offers a smooth installation procedure.
- Robust and slim bit holder for an easy bit exchange.
- Ideal for direct machine connection or enlargement of the bits to reach difficult areas.

APPLICATIONS

- The bit holders for use in cylinder drill chucks

Useful bit sets for a multitude of applications

ADVANTAGES

- Safe and clearly arranged keeping of the content assuring a reliable usage day by day.
- The robust and durable construction fulfilling even hardest requirements.
- The bit sets combining compact dimensions with easy handling and containing the most common bits as well as the bit holder.

APPLICATIONS

- The ideal bit sets for quick and efficient working.
- For a high variation of applications
