

TEST REPORT

APPLICANT : HAVEN TECHNOLOGIES, INC.

ADDRESS : 873 W CARMEL DRIVE, CARMEL, IN, 46032 USA

TESTED SAMPLE DESCRIPTION : WIRELESS EARBUDS

TESTED ITEM NO. : IT-36B,IT-26B,IT-38B,IT-39B

BUYER : HAVEN TECHNOLOGIES, INC

BRAND : ISOTUNES ,ISOTUNES SPORT

AGE REQUESTED ON APPLICATION FORM : NOT PRESENT

SAMPLE RECEIVED DATE : 05-Aug-2024; 30-Sep-2024

TEST PERIOD : 07-Aug-2024 to 10-Oct-2024

The following test item(s) was/were performed on submitted sample(s) and/or component(s) confirmed by applicant

TEST REQUESTED	RESULT
The 241 substances in the Candidate List of Substances of Very High Concern (SVHC) published by European Chemicals Agency (ECHA), latest updated on 27 June 2024, regarding the Regulation (EC) No. 1907/2006: Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).	-
According to the specified scope and analytical techniques, concentrations of tested SVHC are less than 0.1% (w/w) in submitted sample.	PASS

The above sample(s) and sample information was/were submitted and identified on behalf of the applicant. Eurofins will not be liable for the authenticity of the information. This test report is valid for the tested sample only. Without permission of the test center this test report is not permitted to be duplicated in extracts.

Unless otherwise required by the applicant or method/regulation, decision rule in this report did not consider the measurement uncertainty.

COMPONENT LIST

A Wireless Earbuds

Component No.	Component	Material	Color	Item No.
1	Hull of earplug and controller, PCB inside of earplug with all EC, foam pad inside of earplug	Plastic/coating/metal/ceramic/foam	Multi-color	A
2	Tube of earplug	Metal	Silvery	A
3	Cover tube on cable, cable jacket	Soft plastic	Black	A
4	Fixing tube of controller, pad and button of controller, socket cover	Soft plastic/printing	Black and army green/silvery	A
5	Hull of controller and hull of earplug, glue inside of earplug and controller, light cover of controller, all plastic of loudspeaker, fixing block on cable, tape on battery	Plastic/glue	Multi-color	A
6	Net of earplug, magnet inside of earplug	Metal/coating	Silvery/black	A
7	Wire inside of cable, clip on end of cable	Metal	Multi-color	A
8	All metal of loudspeaker	Metal	Multi-color	A
9	PCB of controller and button with all EC, wire jacker of battery, heat-shrinkable tube	Plastic/printing/metal/ceramic/soft plastic	Multi-color	A
10	Soldering tin	Metal	Silvery	A
16	Battery (180mAh 3.7V)	-	-	A

TEST RESULT

241 SVHCs:

Remark:

- (1) The chemical analysis of specified SVHC is performed by means of currently available analytical techniques against the following SVHC related documents published by ECHA:
<https://echa.europa.eu/candidate-list-table>
These lists are under evaluation by ECHA and may subject to change in the future.
Test results in this report are based on the tested sample. This report refers to testing result of tested sample submitted as homogenous material(s). In case such material is being used to compose an article, the results indicated in this report may not represent SVHC concentration in such article. If this report refers to testing result of composite material group by equal weight proportion, the material in each composite test group may come from more than one article.
- (2) Communication of information on substances in articles
Any supplier of an article containing a substance has to provide to the recipient of the article (Article 33(1)) or to a consumer (Article 33(2)) relevant safety information, available to him, when both the following conditions are met:
 - The substance is included in the Candidate List, and
 - The substance is present in articles produced and/or imported above a concentration of 0.1% (w/w),

The information is to be provided to the recipient of the article when the article is supplied for the first time after the inclusion of the substance into the Candidate List and to the consumer upon request by that consumer, within 45 calendar days of that request and free of charge.
- (3) Notification of substances in articles
Notification is the submission of specific information on a substance and its uses in articles, as well as the use of the article to ECHA. Notification of a substance in articles is required by an article producer or importer when all of the following conditions are met:
 - The substance is included in the Candidate List, and
 - The substance is present in articles produced and/or imported above a concentration of 0.1% (w/w), and
 - The total amount of the substance present in all articles produced and/or imported, which contain more than 0.1% (w/w) of the substance, exceeds 1 tonne per year for the producer/importer.
- (4) If a SVHC is found over the reporting limit, the client is suggested to identify the component which contains the SVHC and the exact concentration of the SVHC by requesting further quantitative analysis from the laboratory.

Note: - 1 mg/kg = 1 ppm = 0.0001%

- N.D. = Not Detected

- ¹⁾ The substances are tested in terms of its respective elements (e.g. As, Pb, Cr(VI)) and calculated based on assumption of worst-case.

- ²⁾ The test results of substances are calculated by conversion from the representative compounds.

Other Information / Remark:

According to the customer's requirement, the appointed material has been tested.
